

NOTICE

Weight and balance or operating limitation changes shall be entered in the appropriate aircraft record. An alteration must be compatible with all previous alterations to assure continued conformity with the applicable airworthiness requirements.

8. Description of Work Accomplished

(If more space is required, attach additional sheets. Identify with aircraft nationality and registration mark and date work completed.)

N3976B

Installed Simpson cylinder head temperature guage, part number SR4525, ser. number 101, in rear cockpit instrument panel. Installation of the gauge and the thermocouple lead is the same as original unit, difference is the new guage size is 2 1/4 inch versus 3 1/8 inch of the original. All work done in accordance with AC43.13-1A/3, Chapter 16, sections 1 & 2.

Instructions for continued airworthiness.

Each person doing the annual or 100 hour inspection (as applicable) shall inspect the gauge and lead for condition and security.
